

Meet The Members!

Hi fellow lady riders!

I am a new member to your club and I am very excited to be part of such a wonderful group of ladies who love to ride as I do.

My name is Linda Naylor and I have been living in the Riverside area (Menifee) for the past two years. I moved here from San Diego for a career opportunity. I hail from a large Irish family and I have five brothers and two lovely daughters. I have always been a seeker of new adventures as I

have lived around the world in many places. I was an Army Brat, lol, and that was a great experience in both seeing the world and making new friends as I went.

I was introduced to Harley riding while in a relationship with a man who loved to just get up and go. I had ridden dirt bikes, but never a street bike prior to this introduction. I was immediately on board with this exciting mode of transportation and have never looked back since that day. I took a safety course and bought my bike in May 2006 and we have traveled over 15,000 miles together. I celebrated my 1st year anniversary of Harley ownership by taking a trip to five National Parks (approximately 2500 miles) in May 2007 and that has been my longest adventure to date. I am so looking forward to biking to Canada in June with all of you. I have wanted to ride up the coast into Washington for a while now and this is just the right venue to do that.

Thank you so much for the opportunity to get to know you all and be part of this club. I look forward to participating in the many activities the club has scheduled as an active member.

Take care and never ride faster than your guardian angel can fly!

Linda
